As an obsessive list maker, I started putting this catalog of “how to” books for comic creators together a few months ago.

Pen and Ink Techniques of the Masters

5 Reasons to Draw in Pen and Ink (and Sometimes Big) – REVISITED!

I then turned to James Lynch's extremely resourceful Facebook Group – [Connecting Comic Book Writers and Artists](#) to help me fill in the gaps. Many thanks to Shawn Demumbrum, Robert Menegus, Simon Robins , Fred Kinslow, Kenn O'Neal and so many others for suggesting titles that I missed.

It's not a perfect list, and there's several books from my own library that I haven't included here due to going out of print. But it's a good start. I'm sure I'll add in a dozen more titles throughout the year.

McCloud shows his reader how to master the human condition through word and image in a brilliantly minimalistic way. Both comic book devotees and the
